

REMARKS

Claims 28-30 are currently pending in this application.

In the Official Action of May 26, 2006, claims 28-30 were rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the invention. This ground of rejection is respectfully traversed.

The Examiner states that claim 28 is indefinite in claiming a wetness indicator graphic, an unregistered graphic, a character graphic and an unregistered character graphic. The Examiner further states that it is unclear whether 4 different graphics are intended to be claimed.

In response to the Examiner's comments, and in an effort to clarify the scope of the present invention, the claims have been amended to recite that the unregistered graphic is an unregistered character graphic. In addition, claim 28 has also been amended in order to make clear that the claim elements following the positioning of the unregistered character graphic are directed to the positioning process using a printed web. Antecedent support for the amendment to claim 28 is found on pages 46 and 47 of the instant specification.

In view of the aforementioned facts and reasons, the present application is now believed to overcome the remaining rejections in this application, and to be in proper condition for allowance. Reconsideration and withdrawal of the rejections, and allowance of the remaining claims in this application, is respectfully solicited. The Examiner is invited to contact the undersigned at the telephone number listed below to discuss any matter pertaining to the status of this application.
